

Dear Mr. Zuckerberg and Ms. Sandberg,

We, the undersigned organizations, call on Facebook to remove Congresswoman Marjorie Taylor Greene's campaign and congressional Facebook pages permanently.

Congresswoman Marjorie Taylor Greene has a history of amplifying hate speech, disinformation, and conspiracy theories on Facebook. A few examples:

- Taylor Greene has endorsed the conspiracy theories multiple times on Facebook claiming that the [Parkland](#) and [Sandy Hook](#) school shootings and the [Las Vegas](#) mass shooting were staged false flag events and didn't actually happen. She also harassed one of her colleagues, [Congresswoman Cori Bush](#) in the hallways of Congress.
- Taylor Green [indicated support](#) for executing Nancy Pelosi and other prominent Democrats in Congress before running for Congress herself.
- Taylor Greene [endorsed a conspiracy on Facebook claiming](#) that "that former Secretary of State Hillary Clinton was videotaped murdering a child during a satanic ritual and then ordered a hit on a police officer to cover it up."
- Taylor Greene penned a [conspiracy theory on Facebook](#) claiming "that a laser beam from space started deadly 2018 California wildfire."
- Taylor Greene [used Congresswoman Ilhan Omar's face](#) in a fundraising video about attempts to expel her from Congress on her campaign Facebook page, despite the fact that Omar is not in House Leadership and does not bear responsibility for Taylor Greene's removal.

These examples are just from what made the news last week. Rep. Taylor Greene also recorded hours of videos and [shared them on Facebook](#) where she expresses racist, Islamophobic and anti-Semitic views.

Facebook has allowed Taylor Greene to exploit their platform to spread dangerous lies and grow her own popularity for years without taking action. As [NBC News' Ben Collins](#) put it "[Taylor Greene] is a byproduct of the InfoWars-style far-right centipede content mill, where saying the most outrageous, vicious thing could boost you to Facebook superstardom. She was simply performing for that audience. Then it got real."

But Taylor Greene's extremism didn't remain just on Facebook. Recently a video surfaced of Taylor Greene [harassing Parkland survivor David Hogg](#), a teenager, as he walked to the Hill to meet with Senators about gun violence. She also [encouraged her supporters](#) to attend Trump's rally in January that led to a violent attempted coup where Trump supporters occupied the Capitol building for several hours.

We demand Facebook remove Marjorie Taylor Greene's campaign and congressional pages from the platform permanently and immediately. Rep. Taylor Greene has repeatedly abused and exploited Facebook to spread and amplify hate speech, dangerous conspiracies, and express support for the death of her colleagues in Congress. Her rhetoric has helped incite a

violent attempted coup on the United States of America, and will continue to incite violence and harm against others. Facebook must treat all users equally and apply its incitement policies equally to all users. Facebook must take action against Rep. Taylor Greene as part of a broader effort to protect the majority of its users from hate harassment and harm online.
